

Page 1 - Introduction & Domain Selection

Good afternoon/evening. This is Khushi calling from the Training and Internship Department of Jyesta Corporate Entity. You recently joined our WhatsApp group regarding internship opportunities for your college. May I know your name and branch? Based on your interest, we offer multiple domains including Full Stack Development, Cloud Computing, DevOps, Machine Learning, Artificial Intelligence, Data Science, UI/UX, Data Analytics, Cyber Security, Embedded Systems, AutoCAD, Finance, Human Resources, Digital Marketing, Business Analytics and more. Are you a beginner or do you already have some experience in this domain? Even if you are a beginner, there is no need to worry because the program starts from the fundamentals and gradually moves to advanced concepts.

Page 2 - Program Overview
